WORK EXPERIENCE

University of Toronto - Adventures in science Mentorship program

Sep. 2021 – May 2022

Volunteer - Mentee

Toronto, ON

- AIS is a community outreach group run by science students at the University of Toronto. They mentor high school students to deliver a fun science lesson to an elementary or middle school class.
- My team and I made an interactive lesson on Artificial Intelligence & Space.
 - I did research, learnt, and taught difficult concepts in AI and Space to my groupmates to create the final video.
 - Despite issues regarding attendance from members of my team, by setting a timeline and sticking to a schedule, we were able to complete it in time.
 - We covered:
 - Automation
 - Machine learning
 - Deep learning
 - Natural language processing
 - Computer Vision
 - Astronomy
 - Cosmology

Shums

Dec. 2020 – Present

Founder & CEO

Toronto, ON

- Shums is a small clothing business inspired by the Arabic word for 'sun' (<https://shums.creator-spring.com>).
- As Founder & CEO, I manage our core strategies, product roadmap, printing, marketing, and design.

EDUCATION

Albert Campbell Collegiate Institute

June, 2022

High school diploma

Toronto, ON

- Honor roll; 93% average (99% average in university Computer Science [ICS4U])
- Founder and director of ACCI's MSA.
- Vice president and Chief marketing officer of the Sock Market Game Club [SMGC]
 - My contributions lead to this club being the biggest in the school! (135 Members)
 - Used teamwork and problem-solving skills to manage the club.
